+977-9860636211

Kathmandu, Nepal

## Profile

A computer engineering student with passion for web development specializing in front-end web development. Proficient in HTML, CSS, Javascript, React and Angular, crafting visually appealing and interactive user interfaces. Beginner-level proficiency in server-side development using Node.js and Express. Eager to contribute front-end expertise and learn and grow in server-side development to build innovative web applications.

## Education

### Bachelor of Computer Engineering

2019-2024

Tribhuvan University, IOE, National College of Engineering, Lalitpur

## Experience

### Angular Trainee

2024 JAN – 2024 APR

Bajra Technologies, Dillibazar, Kathmandu

## Courses

### Full Stack Development using MERN

Present

## Relevant Projects

### Ghumfir – A Travel Companion Website

An interactive and responsive travel companion website build using MERN stack with the aim to ease people visiting places around Kathmandu valley using open street map.

### Bike Rental Website

A comprehensive bike rental website using the MEAN stack. Implemented secure login and signup features with JWT authentication, supporting both admin and customer roles with an interactive dashboard for booking management, integrated search functionalities, and detailed booking history and status.

### Admin Dashboard

An admin dashboard project built using the MERN stack with ant design as the UI library, antd/plots and state management with Redux. The dashboard incorporates a Kanban board with drag-and-drop functionality using DnD kit.
